

Supergen Engine Oils, a range of automotive lubricants, are proudly manufactured in India. Exceptional quality and economically priced, Supergen Engine Oils are available in Mineral Base, Premium Mineral, Semi-Synthetic and Premium Synthetic variants.

Engineered to cater to the needs of various vehicles like motorcycles, cars, trucks, tractors, earthmovers along with gen-sets.

Supergen is here for the ones who aspire to excel. Gear up, rise, let Supergen energize your engines.

## DESCRIPTION

Supergen STOU SAE 30 is formulated with powerful dispersion and detergency properties that help maintain engine and equipment cleanliness. The detergent properties of this oil help to dissolve and remove existing deposits, keeping the engine and components clean. By ensuring a clean internal environment, Supergen STOU SAE 30 optimizes combustion, reduces wear, and maintains engine efficiency. Supergen STOU SAE 30 is designed to provide comprehensive protection to engines and machinery against various forms of deterioration. Its specialized formulation is engineered to resist oxidation, ensuring that the oil remains stable and effective even when exposed to high temperatures and extended use. This resistance to oxidation prolongs the oil's service life, allowing it to maintain its protective and lubricating properties, and reducing the need for frequent oil changes.

## APPLICATIONS

STOU stands for Super Tractor Oil Universal, and SAE 30 indicates its viscosity grade. This oil is multipurpose and can be used in tractor engines, transmissions, hydraulics, and final drives. It is well-suited for modern agricultural machinery.

## ADVANTAGES

- Lubrication:** Reduces friction between engine parts, ensuring smooth operation and minimizing wear.
- Cleaning and Protection:** Contains additives that prevent the build-up of sludge, varnish, and deposits while protecting against corrosion.
- Fuel Efficiency:** Improves fuel economy by reducing friction and optimizing engine performance.
- Noise Reduction:** Dampens noise generated by moving parts, resulting in a quieter driving experience.
- Extended Engine Life:** Provides essential lubrication, protection, and cleaning to extend the overall lifespan of the engine.
- Wear Prevention:** Minimizes wear and tear on engine components, reducing the need for repairs.
- Oxidation and Thermal Stability:** Resists oxidation and maintains stability at high temperatures for long-lasting performance.
- Compatibility with Modern Engine Technologies:** Formulated to meet the requirements of advanced engine technologies.
- Extended Oil Change Intervals:** Technological advancements allow for longer oil change intervals, reducing maintenance frequency.
- Improved Cold Weather Performance:** Maintains viscosity control in cold climates, ensuring efficient lubrication and protection.

## TYPES

Mineral Base

	Base	Specifications	Performance Claims	Appearance	Density @ 29°C	Viscosity at 40°C	Viscosity at 100°C	VI	Flash Point °C	Pour Point °C	Vehicle Type/ Application
	SUPERGEN STOU SAE 30 Mineral (SILVER)	STOU	API CE/SF, US MIL-L-2104D, ACEA E-3, Massey Ferguson : M 1139, CMS 1135, Ford : M2C 159B & 159C & M2C 134D, ZF : TE ML 07	Light Brown	0.85-0.90	85-95	10.5	100	220	(-)40	Super Tractor Oil Universal

## STORAGE

All packages should be stored under cover. Where outside storage is unavoidable drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should not be stored above 60°C, exposed to hot sun or freezing conditions.
